# Forest Stewardship Coached Planning

*A forestry class for  
landowners*

SPRING 2017 - Friday Harbor, WA

Saturdays  
March 11 - April 8  
8:00 a.m. - 2:30 p.m.

Forestry

WASHINGTON STATE UNIVERSITY  
EXTENSION

## Your Land. Your Trees. Your Goals.

Natural beauty, wildlife, investment, family ties, privacy, and peace and quiet are some of the many reasons people value their property. Whatever your values are, this comprehensive university-based forestry class will help you get the most out of the land you love. Whether you have just a few acres of woods or a large forest tract, if you have trees on your property, this class is for you.

### Questions we'll address include:

- How do you know if your trees are healthy? What should you do if they aren't?
- What types of trees do you have? Does your forest look like a "mess"?
- How do you attract wildlife you enjoy? What can you do if wildlife cause damage?
- Are there certain trees you should always keep or remove?
- When should you worry about trees being hazards?
- How do you know if your trees need to be thinned, and how do you go about it?
- What is the risk of wildfire on your property?
- Are invasive and noxious weeds taking over your underbrush? What are the risks and what can you do about it?
- What kind of soil do you have and how does that affect what grows?

### Save money, too!

As part of this class we will "coach" you in the writing of your own simple forestry plan that may qualify you for property tax reductions or conservation cost-share grants.

*"Best educational experience since college - including med school."*

# FOREST STEWARDSHIP COACHED PLANNING PROGRAM

## Class information

Dates: Saturdays March 11 - April 8, 2017  
Time: 8:00 a.m. - 2:30 p.m.
